

# Risky Security Debt is Rising. Your Strategy Starts Here.

## The Challenge:

### Rising Security Debt with High Risk

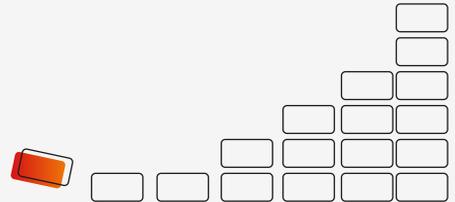

Security debt affects 82% of orgs—an 11% rise YoY

Critical security debt impacts 60% of orgs—a 20% rise YoY

High-risk vulnerabilities are up by 36% YoY.

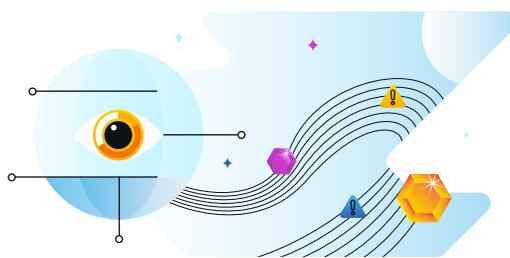

## The Strategy:

**Find Clarity in the Chaos**  
Identify your most critical applications and assets and the most severe, exploitable vulnerabilities.

**Automate and Secure Continuously**  
Integrate security into the development lifecycle (DevSecOps) with automations.

**Ensure Compliance with Evidence**  
Demonstrate adherence to security frameworks and regulations with clear, auditable evidence of effective controls.
